

**CMTEC AG announces the appointment of Joseph S. Bubel as President and member of the Board of Directors of CMTEC NA, Inc. effective March 1, 2018. In addition, he will take over the role of General Manager.**

Mr. Bubel joins CMTEC with extensive Semiconductor Assembly Industry experience. From 2003 through 2014, he served as President of Hesse Mechatronics, Inc. (formerly Hesse & Knipps, Inc.) Prior to his role with Hesse & Knipps, he had a long career at Kulicke and Soffa Industries, primarily in Customer Support, Field Service Engineering and Management.

Bruno Truttmann, Owner of Switzerland-based CMTEC AG said “Mr. Bubel has been heavily involved in the backend semiconductor assembly equipment industry, focusing on technical customer support, new business development, sales, and marketing. We plan to leverage his knowledge, expertise, and customer skills in these areas to greatly benefit our Customers and continue the growth of our business in the Americas.”

When contacted for comment, Mr. Bubel replied “my goal is to separate CMTEC from the rest of the used semiconductor equipment trading companies by being the best at delivering customer solutions through excellent technical support. My number one priority from day one will be Customer Satisfaction, which is always the best way to grow a business.”

**CMTEC** is a trading & consulting company with strong technical support focusing on the semiconductor assembly market. **CMTEC** delivers ‘turn-key’ projects worldwide including installation & training, process support, after sales service and a wide range of spare parts.

We are your one stop shop for Machines: “as is” or fully refurbished to OEM specification.
